

École Des Petits Amis

French Immersion Preschool

Information Sheet

About our Preschool –

Our childcare philosophy for the students of École Des Petits Amis is to provide students with an early exposure to the French language in a fun, safe and engaging environment. Young children learn best when learning through play, at their own pace, in their own way. Preschool children should be exposed to a wide variety of purposeful play activities. Play and learning should coexist to help students grow and achieve their very best. There will always be a balance of structured and unstructured activities throughout our preschool day. Students will learn the French language and learn *in* French through songs, games, and stories.
